The screenshot shows the 'Transportation Monitoring' page in the tom application. A sidebar on the left contains navigation links: HOME > TRANSPORT, Picking List, Order, Execution, Monitoring, Summary, Transportation Seal, Loading Unloading History, Driver Data, Vehicle Data, and Safety & Security Data. The main content area has a header with the tom logo, a title 'Transportation Monitoring', and user information 'Denny Sudjianto Wijono'. Below the header, there are tabs for 'Truck', 'Ship', and 'Train', with 'Truck' selected. A summary table shows: ON DELIVERY (6), ARRIVED AT DESTINATION AND WAITING FOR CONFIRMATION (0), and COMPLETE (1). Below this are buttons for 'Export', 'Custom Report', and 'Upload', and an 'Advanced Search' dropdown. The search form is highlighted with a red box and contains the following fields: TRANSPORTATION NUMBER (with placeholder 'Type Transportation Number'), TRANSPORTATION DATE (with a calendar icon), TO (with a calendar icon), TRANSPORTATION STATUS, VENDOR, ORDER NUMBER, SENDER, RECEIVER, START LOCATION, and FINISH LOCATION. At the bottom of the search form are 'Search' and 'Reset' buttons. Red annotations include: '2 Pilih Transportation Mode' with an arrow pointing to the 'Truck' tab; '3 Tentukan Filter sesuai kebutuhan' with an example of searching for shipments on 1 December 2018 to Medan; and a red arrow pointing from the text 'Lalu tekan search' to the 'Search' button.

Note

- S1. Ada 2 tipe order status yang perlu diperhatikan:
- On Delivery artinya tempat muat sudah melakukan GI lalu truck melanjutkan perjalanan
 - Arrive at Destination and Waiting for Confirmation artinya truck sudah sampai ke tujuan berdasarkan data GPS. Mohon info ini dikonfirmasi, salah satu caranya dengan melakukan GR barang di SAP
 - Apabila tidak ada action apapun, maka 1x 24 jam dianggap truck sudah confirm datang di area bongkar. TOM akan melakukan auto GR.
